

## Pool Calendar

### How It Works:

As you may be aware, for the pool to open outside of school hours, two spotters are required. At least one spotter must be resuscitation trained (Lead Spotter) and the second one can be a responsible adult who is a competent swimmer (Assistant Spotter). The calendar is colour coded with Lead Spotter being red and Assistant Spotter being blue. The available sessions are shown on each day with a question mark next to the time slot (one red time slot and one blue time slot for each session). To add your name to spot for a particular time slot, click on that time slot and replace the question mark in the title box with your name. Then click on save and your name will be shown on that time slot on the calendar.

When there are two names shown for a particular time slot, then the pool will be open for that session. We advise that you check the calendar often, as if it is a nice day, sometimes people will sign up to spot quite close to the session time. In addition, if it is a really glorious day, more sessions may be added to allow as many people to access the pool as possible. In this situation, additional sessions will be shown on the calendar.

For your information, there is a list of Lead Spotters on the Swimming Pool Zone page of the school website (under Colleton School Association). Lead Spotters will be responsible for opening up and closing of the out of school hours pool sessions. All families who have made the suggested donation for curriculum swimming have access to the out of school hours pool sessions. **It's not too late to pay - please download a form from the Swimming Pool Zone of the school website or pick one up from reception.**

Happy Swimming
