

Middle Team Home Learning – Autumn 2020

As our topic this term is based on Ancient Greece, we would like to create our very own virtual Ancient Greek museum and we need your help. For your home learning project, we would like you to create/make either an artefact or a model of something that could have been used or seen in this period. For example, you could choose one of the following:

A gold coin from Athens	The symbol of one of the Gods, eg the caduceus of Hermes.
An Aulos (a wind instrument)	An Ancient Greek toy
An oenochoe (pottery wine jug)	A model of the Parthenon
A statue/face of a God/Goddess	A model of a warship
The helmet or armour of a Greek soldier	A model of a Greek theatre
A piece of jewellery	

We are sure you will be able to think of other ideas as well.

We would also like you to write a museum label/caption for your creation so that everyone knows what it is. This description should be written on an A5 piece of paper or card and include the object's name and other background details to interest

- What was it used for?
- Who used it?
- What was it made of?
- Where was it found?

Lay out your artefact with the description below it and take a photograph. Please upload the photograph to onto tinyurl.com/TheColletonCommunity in Middle Team/Home Learning/Your child's registration group by **Monday 7th December**. We will share the exhibitions in school and you are welcome to enjoy them from home. We expect everyone to complete this project and we look forward to seeing your creations.

Many thanks for your support,

Middle Team Teachers
